Do your homework. Please check out the FDA website <http://www.cfsan.fda.gov/~dms/cos-lab1.html> for up-to-date information on labeling requirements. We will evaluate your label for your ingredient decks and proper fill quantities, but we will not get involved in any marketing or labeling claims.

Any additional steps that we will do when filling your containers so that it ships ready to sell?

Product Case Cartons: this pertains to any special box that you will have designed and/or is needed to ship your products in specific case quantities. For example, do you want these shipped in certain case sets? Like 6 units per box, or 24 units, etc.? If you do, then we can put you in contact with a box manufacturer to design individual shipping cartons for your products, or you can use a vendor of your choice. If you are sending your final product to a fulfillment house or a retail I suggest checking with them to see if they have requirements around this. We will need this information in order to do your final price quote.

Vendor they will be coming from: _____

Shipping Requirements: will the final product be sent to an outside retailer such as Amazon, TJ Max, Marshalls, QVC, HSN, Wal-Mart, etc. or a fulfillment house that has specific requirements as to how the product must be boxed and labeled? Many retailers do so make sure to check with them and submit copied of all paperwork to us before you submit your order as there may be additional steps and additional fees for the shipping prep.

Please have all items, including samples from you and items from any vendor, sent in addressed the following way:

Your Business Name
c/o RainShadow Labs
